

NATA and the national CAR CARE COUNCIL present:

Consumer Car Care Guides

Order your Car Care Guides now!
Spring, summer or fall, include a copy with your customers' annual vehicle maintenance programs!

This first-of-its-kind reference guide for motorists from the Car Care Council is now available to the independent aftermarket. When in the hands of a car-owning consumer, this little book is a tremendous promotional tool for both your auto parts business and your repair shop customers. Just imagine how this inexpensive, powerful, glove-box size booklet can work for your business; Service Writers in repair shops will find them very useful when explaining needed repairs to their customers and even Counter Staff can refer to the hand reference when selling parts and systems to walk-in customer. Most importantly, as a complimentary hand-out, consumers will find the Car Care Guide very helpful in turning technical automotive terms into easy-to-understand language — taking the mystery out of vehicle maintenance and repair! The 56-page guide covers nine major service occasions and 12 component groups of the vehicle, plus service interval recommendations, a maintenance log, and much more. There is ample space on the back cover for your company information using your own stickers or ink stamps.

Now available from NATA! Minimum quantity is 25 at \$0.50 each. Orders of 200 or more: booklets will cost \$0.40 each. Shipping & Handling charges apply. No S&H for orders prepared for pickup. Call 503-253-9898 or 800-730-7282 to order!
